SECTION 01 - INTRODUCTION

INTRODUCTION

We are an alumex expert company for manufacturing aluminum windows, doors and glass facades. Our company was established in 2011 in Baghdad It was one of the first companies to introduce the concept of special sections (double-glazed with sound, heat, dust and water insulation) to the Iraqi market.

It was a humble company like any other small growing company I worked under the leadership of Engineer Ghaith Al-Dabbaj and Engineer Fayd Al-Dabbaj, and the company expanded and turned into an integrated company and one of the first companies in Iraq in the field of the Germans

2 - Where are the last days?

The Alumex company today owns one of the largest aluminum factories in Baghdad in the Aweerij industrial area located on an area of 8000 square meters with high-quality international production lines and with a total staff of administrators, engineers, professional cadres and labor of distinguished employees, numbering (140) employees

The global system of management (system) was introduced to the company in 2020, and since its establishment, the company has implemented more than 3500 projects in Baghdad and the rest of the provinces.

The company has branches in the governorates, to its main branch in Baghdad

Najaf branch | Basra branch | Babil Governorate branch is under construction

Our mission:

Providing aluminum products such as doors, windows, glass and metal curtains with high quality and reasonable prices to meet the desires of customers who are looking for the best through our experience and knowledge and the use of the latest technologies in this field in addition to creativity and innovation

Vision

We strive to be the (ALUMX Experts) company as the first leading company in the field of aluminum industry and the services associated with it locally and regionally.

Mission

Providing aluminum products such as doors, windows, glass and metal curtains with high quality and reasonable prices to meet the desires of customers who are looking for the best through our experience and knowledge and the use of the latest technologies in this field in addition to creativity and innovation

Core Values

Customer Satisfaction:

Alumex maintains a strong foundation of trust and mutual respect generated through positive relationships with Clients / Customers. We interpret ideas and develop plans through communicating with Clients and fulfilling their dreams into reality.

Teamwork:

Working together is success. Unesia's ability to direct individual accomplishments towards organizational objectives is the fuel that allows us to attain uncommon results.

Quality Service:

Unesia implements a Quality Management System with high standards to provide high quality, efficient and cost effective services for Projects.

Safety First:

"Safety First" is "Safety Always"

THE ALUMEX POLICY STATEMENT

Alumex has identified the values of Honesty, Respect and Trust, and the values that are decisive for generating profitable business: Customer Focus, Teamwork, Quality Service and Communication.

Copy of Code of Business Conduct and Ethics is provided for all the employees and is readily available upon request. Its primary purpose is to provide guidelines and to further clarify the significance of the values mentioned above. It is adopted and promoted in Companies practical day-to-day business activities.

HEALTH, SAFETY AND ENVIRONMENTAL STATEMENT

Alumex is committed to the safety and health of its employees and the preservation of the environment to families of today and future generations.

We will meet our commitment by:

- ▶ “Safety First” is our motto. This commitment is enforced by our Safety Division and an emphasis on safety from the management. Unesia is having a Health, Safety and Environment System implemented for the well being of all employees to provide a healthful and safe work environment for all employees.
- ▶ HSE System Establishment based upon the most stringent regulatory requirements and recognized best management practices.
- ▶ Regularly assessing and auditing all our operations to measure conformance to our policies and standards with the goal of continuous improvement.

Producing products/services consistent with our environmental responsibility. Our stewardship includes careful conservation of the natural resources we use in all the areas of the company. We always look for ways to reduce waste, promote recycling, and increase efficiency of our energy and water use. Our goal is to take an active role in using both natural and recycled resources in an environmentally sound manner
